

Lake Amphibian Club approved Flight Instructors

As you can see, the list is subject to changes.

The club website is the place to go for the latest information.

www.lakeamphibclub.com

Disclaimer – While we have tried to make sure that the instructors listed here have excellent Lake qualifications, it is impossible to fly with all of them, but in most cases we have asked for a resume of their instruction experience plus their time in Lakes. Should you use one you do so at your own risk, as you would with any instructor.

Get to know your instructor first.

There are other Lake qualified instructors that should be listed, but the club is unaware of who they are and where they are located.

The same is true for Lake qualified maintenance facilities.

If you are aware of any of the above that are NOT on our list please send us their contact information and we will add them to our master list.

Our goal is to make it easier for our membership and other interested parties to own and fly their Lake safely.

If you know someone who is not a member yet, please pass our information on to them and tell them what they are missing.

An application is attached herein and also can be found on our website, along with all sorts of other good information.

Additional copies of **All About Lakes** and these lists are available from the author.
